VOC	Volatile Organic Compounds

Executive summary

Introduction

Better Cities Group (the Client), on behalf of Bega Valley Shire Council (Council), have engaged NGH Pty Ltd (NGH), to prepare a limited Preliminary Site Investigation (PSI) to support the proposed Bega urban expansion area, which involves a residential subdivision immediately south of Bega.

Objectives and scope of work

The objectives of this PSI report are to inform Council of any identified potential soil and / or groundwater contamination associated with the subject land and / or adjoining properties, and to:

- Identify past and present potentially contaminating activities (based on available information)
- Identify potential contamination sources and types
- Discuss the site condition including any external observations of potentially hazardous materials
- Provide a preliminary assessment of potential site contamination
- Assess the need for further investigations.

The scope of work includes:

- A review of historical aerial photographs, previous environmental reports and available databases relating to contaminated land. NGH engaged Lotsearch to provide an Enviro Pro database search report and historical aerial imagery. The report is attached as Appendix A. Aerial imagery for the report is attached as Appendix B.
- Review available geological and hydrogeological data for the site
- Develop a preliminary Conceptual Site Model (CSM) for the site
- Preparation of this report detailing the results of this scope of works.

Discussion

The results of this PSI indicate that the subject land has been used for the purposes of residential development and grazing (native and modified vegetation). A water supply system occurs to the southeast of the western portion of the subject land. The surrounding land is largely utilised for the purposes of residential development (the town of Bega), and agricultural purposes, namely grazing.

A search of the Contaminated Land Record returned no records for the subject land. Similarly, the subject land is not listed as a contaminated site within NSW, nor does it contain a former gasworks development.

Data Gaps

Based on the findings of this PSI, the following data gaps have been identified:

- The history of the subject land is limited by the information sources as described in Section 3 of the PSI
- A site walkover was not conducted during the preparation of this PSI
- The extent and composition of any fill material that might occur within the subject land, as a result of prior development, is unknown.

Conclusion

The results of the PSI indicate that the subject land has been largely used for residential development, as well as grazing (native and modified vegetation). A water supply system occurs to the southeast of the western portion of the subject land. The surrounding land is largely utilised for the purposes of residential development (the town of Bega), and agricultural purposes, namely grazing.

The site history review identified the following AECs for the subject land:

- AEC1 – Hazardous building materials
- AEC2 – On and offsite contamination from motor garages and service stations
- AEC3 – Offsite contamination from the upgradient cemetery

Recommendations

Based on the findings of the PSI, it is recommended that a targeted site walkover be conducted, to determine:

- The location and extent of the two on-site motor garages / service stations
- The presence / absence of hazardous building materials within developed areas of the subject land.

Targeted survey areas will be determined using historic aerial imagery, prior to the site visit.

The findings of the site walkover will inform further assessment of the site, including targeted sampling locations. This will include land located along the boundary of the cemetery.

1. Introduction

1.1. Background

Better Cities Group (the Client), on behalf of Bega Valley Shire Council (Council), have engaged NGH Pty Ltd (NGH), to prepare a limited Preliminary Site Investigation (PSI) to support the proposed Bega urban expansion area, which involves a residential subdivision immediately south of Bega.

As can be seen in Figure 1-1, the subject land relates to two portions of land. For the purposes of this report, the two parcels are referred to as the eastern and western portions of the subject land.

1.2. Objectives

The objectives of this PSI report are to inform Council of any identified potential soil and / or groundwater contamination associated with the subject land and / or adjoining properties, and to:

- Identify past and present potentially contaminating activities (based on available information)
- Identify potential contamination sources and types
- Discuss the site condition including any external observations of potentially hazardous materials
- Provide a preliminary assessment of potential site contamination
- Assess the need for further investigations.

1.3. Scope of works

The scope of work includes:

- A review of historical aerial photographs, previous environmental reports and available databases relating to contaminated land. NGH engaged Lotsearch to provide an Enviro Pro database search report and historical aerial imagery. The report is attached as Appendix A. Aerial imagery for the report is attached as Appendix B.
- Review available geological and hydrogeological data for the site
- Develop a preliminary Conceptual Site Model (CSM) for the site
- Preparation of this report detailing the results of this scope of works.

Figure 1-1 Locality map

1.4. Project specific limitations

- This PSI report has been prepared by NGH on behalf of Council and may only be used and relied on by Council
- This PSI report is limited to database searches undertaken in May 2023, as well as current and historic information available at the time the report was prepared
- A site inspection was not conducted during the preparation of this PSI
- NGH does not accept any responsibility for any contamination that may exist within the site
- This PSI report does not provide a complete assessment of the environmental status of the site and is limited to the scope outlined above.

1.5. Statutory framework

The standards that have been used to develop this PSI are endorsed by the NSW Government and comply with the requirements of the National Environmental Protection Council *National Environmental Protection (Assessment of Contaminated sites) Measure 2013* (NEPM 2013). The standards include:

- Australian Standard AS 4482.1-2005 Guide to investigation and sampling of sites with potentially contaminated soil (AS 4482.1-2005, 2005)
- National Environment Protection (Assessment of Site Contamination) Measure 1999, Schedules (NEPM, 1999)
- NSW EPA Consultants Reporting on Contaminated Land – Contaminated Land Guidelines (EPA, 2020)
NSW EPA Contaminated Land Management: Guidelines for the NSW Site Auditor Scheme 2017 (EPA, 2017)
- NSW EPA Duty to Report Contamination under the Contaminated Land Management Act 1997 (EPA, 1997)
- NSW EPA Sampling Design Guidelines (EPA, 2022)
- NSW Government State of Environmental Planning Policy (SEPP) Resilience and Hazards 2021 (NSW Government, 2021).

2. Site details

Table 2-1 Site details

Item	Detail
Site Address	Multiple lots, east and west of the Princes Highway, to the south of the town of Bega, NSW, 2550.
Lot and DP	Multiple Lots, refer to Appendix B for the full listing.
Site boundary area	The subject land has a total area of approximately 650 hectares (ha). The portion of land to the east of the Princes Highway has an area of approximately 140 ha. The portion of land to the west of the Princes Highway has an area of approximately 510 ha.
Current land use	Current land use within the subject land largely consists of grazing (irrigated / modified pastures) and residential and farm infrastructure. Smaller portions of the subject land also consist of grazing (native vegetation), services (water supply system), rivers and marsh / wetlands. Refer to Figure 2-1 for land use mapping.
Proposed land use	Residential development.
Surrounding land use	North: Residential land use (township of Bega). Industrial land (Tarra Ford Volkswagen and South Coast Diesel and Hydraulics) occur approximately 200 m north of the eastern portion of the subject land. South: A mixture of residential and farm infrastructure and grazing (native and modified vegetation). A cemetery and industrial land (Bega Valley Saleyards and the Cleanaway Solid Waste Depot) occurs south of the eastern portion of the subject land. East: Residential land use (township of Bega), grazing (irrigated / modified pastures), industrial purposes and marsh / wetlands. West: Residential and farm infrastructures and grazing (native and modified vegetation).
Zoning	Land within the subject land is largely zoned RU2 Rural Landscape, R5 Large Lot Residential and C2 Environmental Conservation. Smaller portions of the land are also zoned IN1 General Industrial, RU1 Primary Production

Item	Detail
	and SP2 Water Supply System. Refer to Figure 2-2 for land zoning.

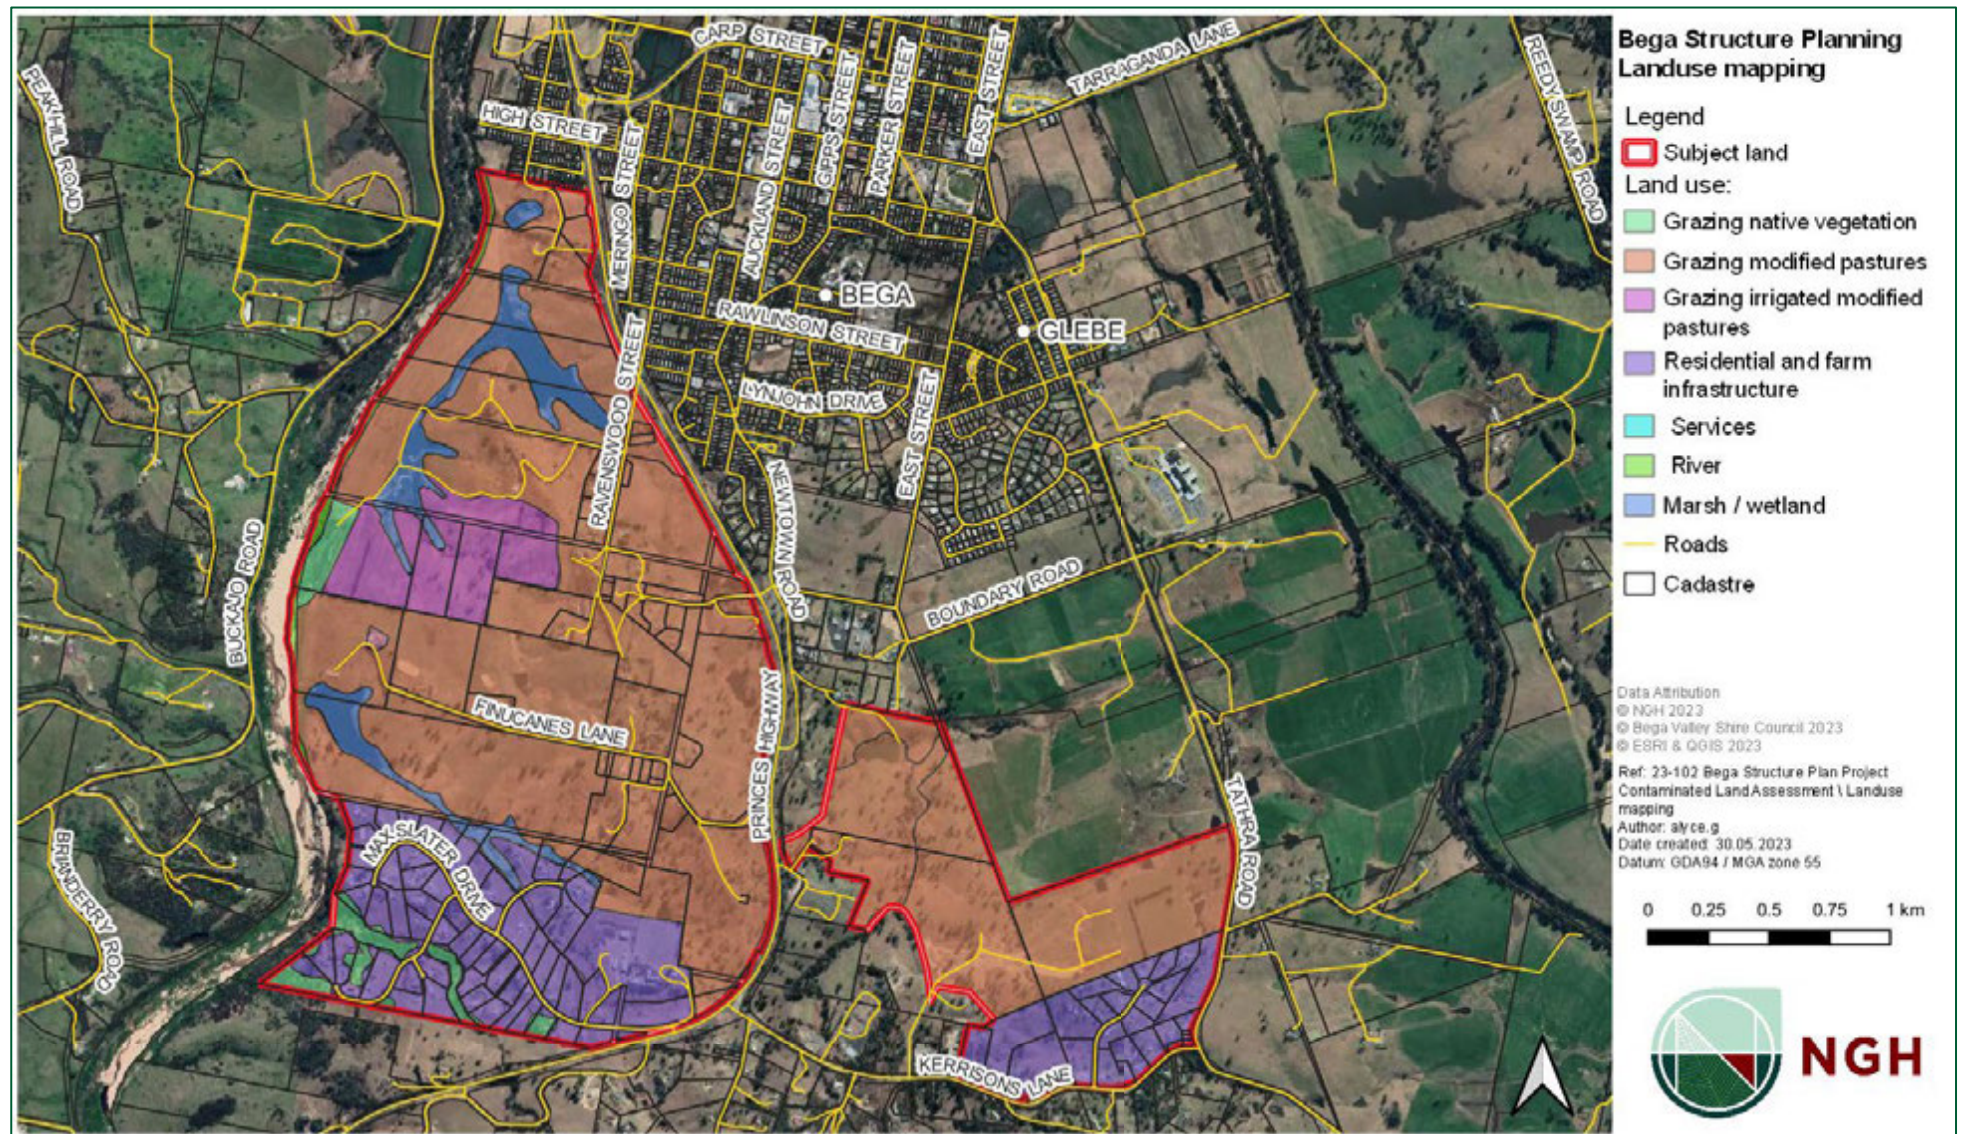

Figure 2-1 Land use within the subject land

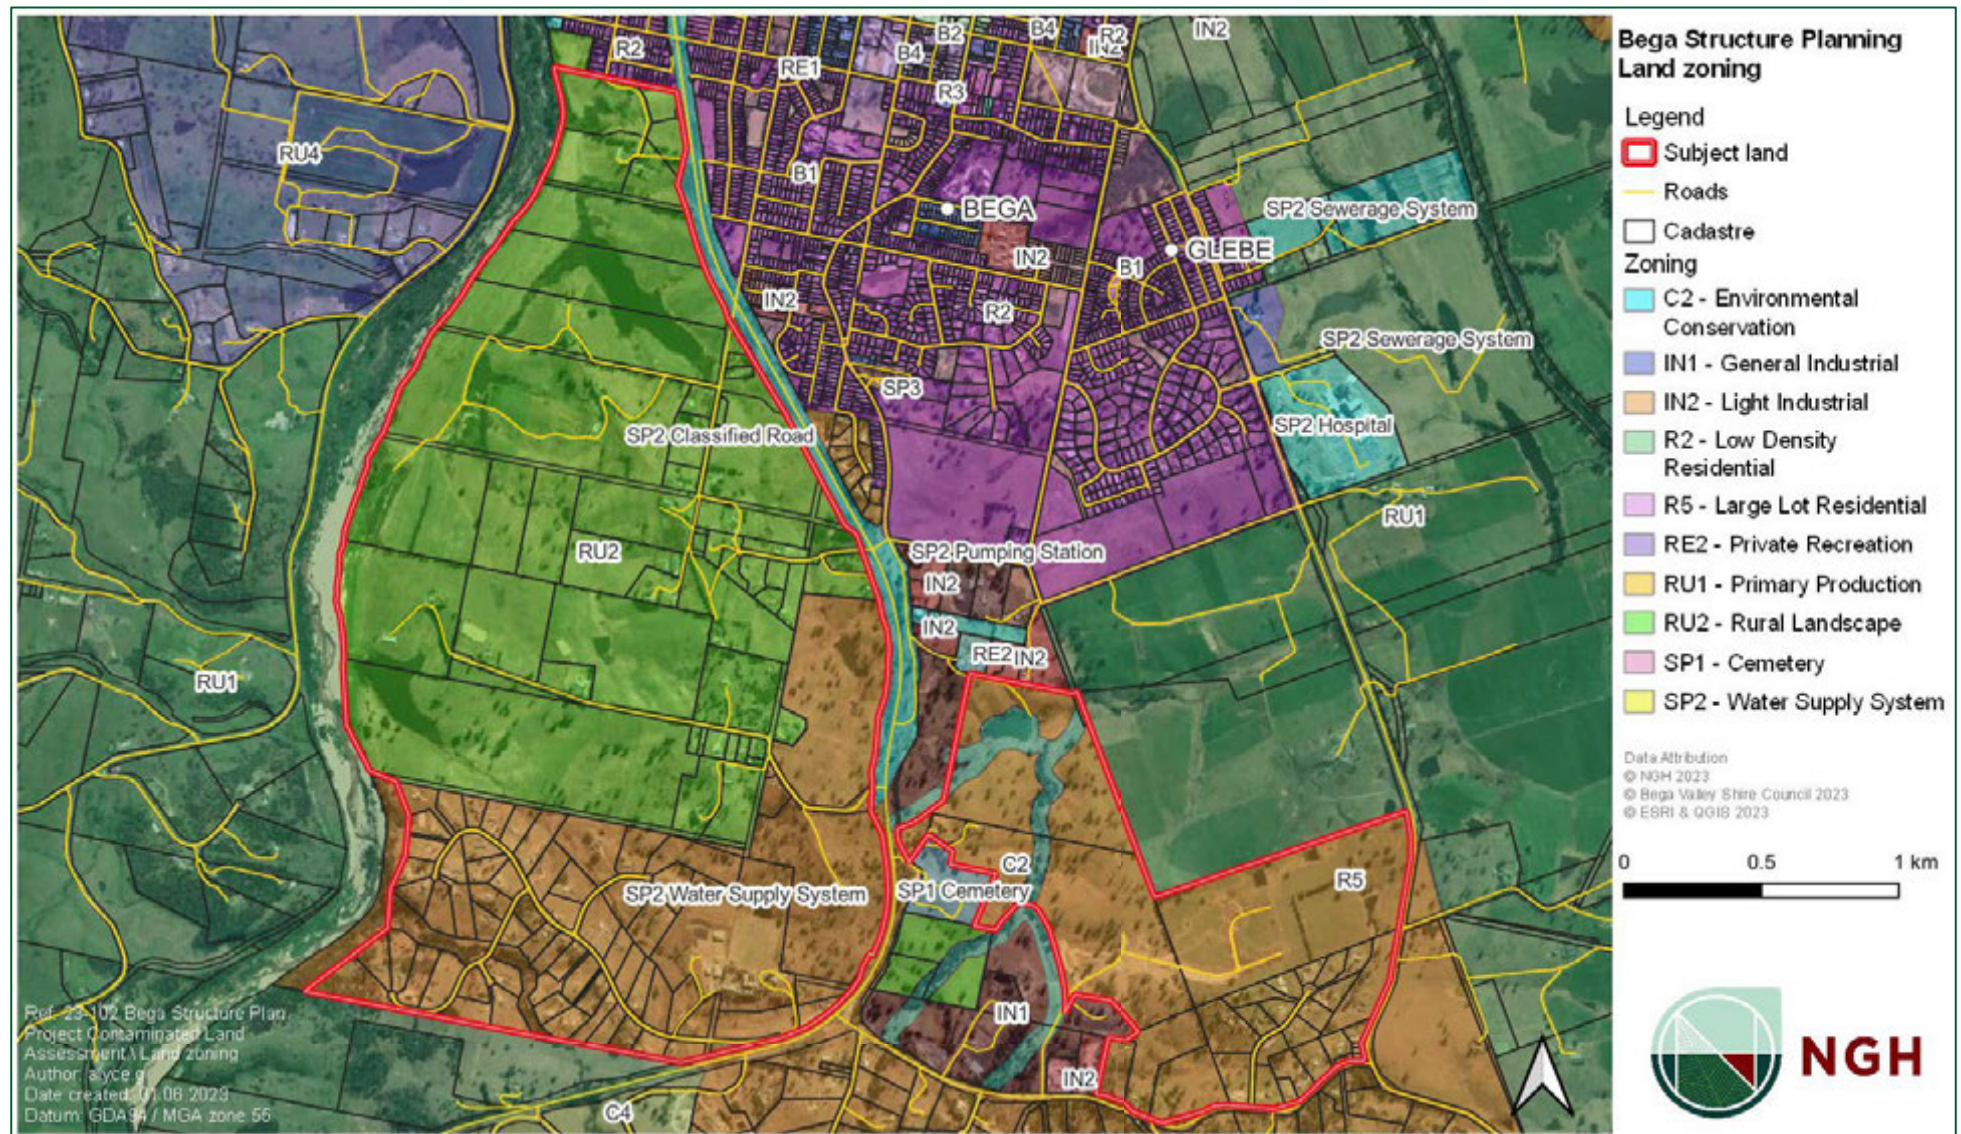

Figure 2-2 Land zoning within the subject land

3. Site history review

NGH undertook a historical review of previous land use within the subject land and the surrounding area, which may have contributed to potential site contamination. The following information sources were reviewed and consulted:

- Historical aerial photographs from the period 1944 to 2023
- Government database searches
- Previous environmental investigations.

The accuracy of the information supplied is considered to be of an acceptable quality for the purpose of the review. NGH engaged Lotsearch Pty Ltd to provide an industry standard report for the site. NSW Government online resources were additionally used to establish a reputable foundation of the history of the site.

3.1. Previous environmental investigations

No previous environmental investigations, pertinent to contamination, were identified for the subject land.

3.2. Historical aerial photography review

Historical aerial photographs were reviewed to provide information on past site uses. The results are presented in Table 3-1 and the historical aerial photographs included in the Lotsearch reports, attached in Appendix B.

The following historic aerial photograph review has been undertaken for the subject land, as identified in Figure 1-1, and the immediate surrounds only within a 150 m buffer zone. For the purposes of this assessment, the following descriptions apply:

- Northwest – the northwest portion of the subject land, as defined in Lotsearch Report LS044021 EA
- Southwest – the southwest portion of the subject land, as defined in Lotsearch Report LS044022 EA
- East – the eastern portion of the subject land, as defined in Lotsearch Report LS044023 EA

Refer to Appendix B for details on aerial coverage for each of these areas.

Table 3-1 Historic aerial photography

Year	Description
1944	Note - Historic imagery for 1944 is restricted to the northwest portion of the subject land. Northwest: This section of the subject land has been largely cleared, with scattered trees visible. Roads pass through the land leading to a homestead in the centre. Another structure is evident in the southwest. This land is likely used for the purposes of cropping and grazing. Surrounding land: Land to the east and north east is largely used for residential purposes (the town of Bega). Land to the west has been cleared and is likely used for grazing purposes. The Bega River can be seen running in a north-south direction, along the western boundary of the subject land.

1957	Northwest: Aerial imagery is consistent with 1944, with no demonstrable changes. Surrounding land: No major changes have occurred since the 1944 imagery. Southwest: This portion of the subject land has been cleared; however, more trees have been retained, especially along elevated sections of land. A road passes through the land, terminating at a built structure in the northern portion of the land. The land may have been used for grazing. Surrounding land: Relatively undisturbed. A road can be seen running in a north-south direction, to the east of the subject land. The Bega River borders the subject land to the west. East: This portion contains the largest proportion of trees and appears relatively undisturbed. Some paddocks have been utilised for the purposes of cropping. Surrounding land: Roads border the eastern, southern and western boundaries of the subject land. A house can be seen immediately north of the site. A cemetery occurs to the southwest of the subject land.
1967	Northwest: Additional buildings and access roads have been constructed. The structure in the southwest appears to have been removed. Surrounding land: No notable changes have occurred since 1957. Southwest: Another access road (possibly terminating at a structure) has been built to the south. Surrounding land: Another access road (terminating at what used to be a structure – refer to northwest section) is evident. East: A series of structures (sheds) is evident in the south east corner of the subject land. Surrounding land: Land to the north of the subject land is being utilised for agricultural purposes. The cemetery has expanded.
1979	Northwest: Waterbodies within this section of land are holding larger volumes of water. Surrounding land: An additional structure (likely a shed) has been constructed immediately south west of the subject land. Southwest: An additional structure (likely a shed) has been constructed in the northeast corner of the land. Waterbodies within the subject land are holding larger volumes of water. Surrounding land: Road upgrades have led to a wider road, which winds around the subject land to the east and south. East: Additional development has occurred in the south east corner of the subject land. Surrounding land: No notable changes have occurred since 1967.
1987	Northwest: No notable changes have occurred since 1979. Southwest: Aerial imagery is unclear; however, a water supply system has been constructed in the southeast portion of the subject land. This is supported by the land zoning for this location, which is SP2 – Water Supply System. East: No notable changes have occurred since 1979.
1993	Northwest: Additional access roads are evident, linking the existing buildings. Additional access roads and residential development has occurred within the northern and southeast portion of the land. An access road, terminating at a structure (possible shed / house) has also been built in the southwest corner of the land. Surrounding land: A residential development has been built along the southern boundary of the land. An access road, which enters the northwest portion of the site, has been constructed. Southwest: An access road has been built across the land in an east - northwest direction. A residence has been constructed along the northeast boundary.

	Surrounding land: The access road occurring within the southwest portion of the site continues in a northwest direction. East: Access roads and two structure (likely a house and a shed) has been built on the western side of the land. Surrounding land: An access road and structure (likely a shed) has been built immediately north of the subject land. A structure (presumably what is now the Bega Solid Waste Depot) has been constructed to the south. Houses and sheds have been constructed south and south east of the subject land.
2004 / 2005	Northwest: An additional residence has been constructed along the southern boundary of the land. Surrounding land: No notable changes since 1993. Southwest: Significant development has occurred within the southern portion of the land. Multiple access roads have been built, along with sheds and dams. Surrounding land: An additional residence has been constructed immediately north of the land. East: Three farm dams have been constructed. A residence has been constructed in the south west portion of the land. Surrounding land: A collection of buildings have been constructed to the southwest of the subject land. Another shed has been constructed immediately to the north of the subject land. The cemetery has expanded.
2010	Northwest: No notable changes since 2004. Southwest: No notable changes since 2004. East: Three farm dams have been constructed. Surrounding land: Improved pastures are evident to the north of the subject land.
2015	Northwest: No notable changes since 2004. Southwest: Significant residential development continues to occur in the southern half of the land. Surrounding land: No notable changes since 2010. East: Additional roads and buildings have been constructed in the southeast corner of the land. Surrounding land: No notable changes since 2010.
2020	Northwest: No notable changes since 2004. Southwest: No notable changes since 2015. East: No notable changes since 2010.
2023	Northwest: No notable changes since 2004. Southwest: No notable changes since 2015. East: Residential development, including access roads, has occurred within the middle portion of the land. Surrounding land: Ground disturbance is evident to the west of the subject land.

3.3. Database searches

3.3.1. Lotsearch

NGH engaged Lotsearch to complete an Enviro Pro database search report, the dataset listing of the Lotsearch is included on page two of the report (refer to Appendix A). The search was undertaken on 23 May 2023 and identified the following items within a one (1) kilometre (km) buffer:

Contaminated Land

- List of NSW contaminated sites notified to the EPA search returned one record, a Coles Express (former Caltex) Service Station located approximately 850 m north of the subject land
- Contaminated Land Record of Notices search returned no records within the buffer
- No former gasworks are recorded within the buffer.

Waste Management and Liquid Fuel Facilities

- National Waste Management Site Database search returned one record, the Bega Landfill, located approximately 174 m southeast of the subject land
- National Liquid Fuel Facilities search returned two records:
 - Caltex Bega, located 218 m northeast of the subject land
 - 7-Eleven Pty Ltd, located 850 m north of the subject land.

Per- and Polyfluoroalkyl Substances (PFAS) Investigation and Management Programs

- The EPA PFAS Investigation Program returned no records within the buffer
- Defence PFAS Investigation Program search returned no records within the buffer
- Defence PFAS Management Program search returned no records within the buffer
- Airservices Australia National PFAS Management Program search returned no records within the buffer.

Defence Sites

- Defence 3 Year Regional Contamination Investigation Program search returned no records within the buffer.

EPA Activities

- EPA other sites with contamination issues search returned no records within the buffer
- Licensed activities under the Protection of the Environment Operations Act 1997 (POEO Act 1997) returned one record, Bega Cheese Limited, located 141 m north west of the subject land
- Delicensed activities still regulated by the EPA returned one record, the Greater Southern Area Health Service, located approximately 411 m north of the subject land
- Former licensed activities under the POEO Act 1997 now revoked or surrendered returned five records:
 - Luhrmann Environment Management Pty Ltd, located within the subject land
 - Robert Orchard (application of herbicides), located within the subject land
 - Sydney Weed and Pest Management Pty Ltd, located within the subject land
 - Bega Valley Shire Council (Animal accommodation), located 42 m south east of the subject land

- Kevin James Keevers (Pig accommodation), located 174 m west of the subject land.

Historic Business Directories

- Business Directory Records 1950-1991 Premise or Road Intersection Matches returned no records within the buffer
- Business Directory Records 1950-1991 Road or Area Matches returned with multiple records within the buffer (refer to Appendix A)
- Dry Cleaners, motor garages & service stations premise or road intersection matches search returned no records within the buffer
- Dry cleaners, motor garages and service station road matches search returned four records:
 - Slater Max & Co. (motor garages and service stations)
 - Balmain Bros (motor garages and/or engineers and/or service stations)
 - Two Lakes Service Station (motor garages and/or engineers)
 - Momsen (motor garages and engineers).

4. Geological and hydrological review

4.1. Landscape and topography

The subject land is located immediately south of Bega within the South Coast Region of NSW.

The Bega River, a 7th order watercourse, borders the western boundary of the subject land. A number of unnamed drainage lines and waterbodies flow through the western portion of the subject land, before feeding into the Bega River, refer to Figure 1-1. The Bega River is a major hydrological feature for this region.

Parbery Creek, a 4th order watercourse, intersects the eastern portion of the subject land. A number of unnamed drainage lines and waterbodies flow through the eastern portion of the subject land, before feeding into Parbery Creek. Parbery Creek is a tributary of the Bega River to the east.

The general topography of the subject land and surrounding area consists of gently rolling hills. Topography within the subject land varies, with elevations of 10 - 110 m Australian Height Datum (AHD), refer to Figure 4-1.

4.2. Geology

Geological units occurring within the subject land are listed in Table 4-1.

Table 4-1 Geological units occurring within the subject land

Unit code	Unit name	Description	Age	Dominant lithology
Dr_b	Brogo Granodiorite	Uniform, massive, fine grained biotite hornblende, K-feldspar, quartz-plagioclase granodiorite.	Early Devonian (base) to Early Devonian (top)	Granodiorite
Q_al	Alluvial levee / overbank deposits	Fluvially deposited fine- to medium-grained lithic to quartz-rich sand, silt, clay.	Quaternary (base) to Now (top)	Clastic sediments
Q_av	Alluvial valley deposits	Silt, clay, (fluvially deposited) lithic to quartzlithic sand, gravel.	Quaternary (base) to Now (top)	Clastic sediments
QH_I	Claypan and lacustrine deposits	Friable to plastic, finely laminated grey clay, silty clay, humic clay, grey paleosols; locally includes medium- to fine-grained sand.	Holocene (base) to Now (top)	Clastic sediments
Oada	Abercrombie	Brown and buff to grey, thin- to thick-	La2b	Sandstone

Unit code	Unit name	Description	Age	Dominant lithology
	Formation	bedded, fine to coarse-grained micaquartz ($\pm$ feldspar) sandstone, interbedded with laminated siltstone and mudstone. Sporadic chert-rich units.	(Lancefieldian) (base) to Da4 (Darriwilian) (top)	
Q_ab	Alluvial backswamp deposits	Organic-rich mud, peat, silt, clay.	Quaternary (base) to Now (top)	Organic rich sediment
Q_acb	Alluvial channel deposits - in-channel bar	Polymictic to lithic to quartz-rich sand and gravel; silt and clay; polymictic pebble- to cobble- in-channel imbricated lag and bar deposits with interstitial sand, silt and clay.	Quaternary (base) to Now (top)	Clastic sediment
Q_acw	Alluvial channel deposits - subaqueous	Fluvially deposited sand, gravel, silt, clay.	Quaternary (base) to Now (top)	Clastic sediment

The site is not mapped within an area of naturally occurring asbestos within the geological units.

4.3. Soils

According to the Atlas of Australian Soils, the soils on site are classified as Dermosols. Dermosols occurring within the subject land are within a landscape described as hilly with some steep slopes and small graded valleys: moderately steep rounded hills of brown and red friable earths (Gn3.21 and Gn3.22 and Gn3.11 and Gn3.12) in association with less rounded hill slopes of hard acidic yellow mottled soils (Dy3.41), hard acidic red soils (Dr2.21), and yellow leached earths (Gn3.54), and also other hill slopes of loamy soils having an A2 horizon (Um4.2) with yellow-brown earths (Gn2.44); stream valleys of various soils including (Dy4.41), (Dy5.41), and (Um6.11).

The subject land occurs on the Yellow Podzolic Soils (less fertile) and Alluvial Soils (medium to heavy textured) Great Soil Groups (GSGs) (NSW Government, 2015).

The site is not mapped within an area of acid sulphate soils or dryland salinity.

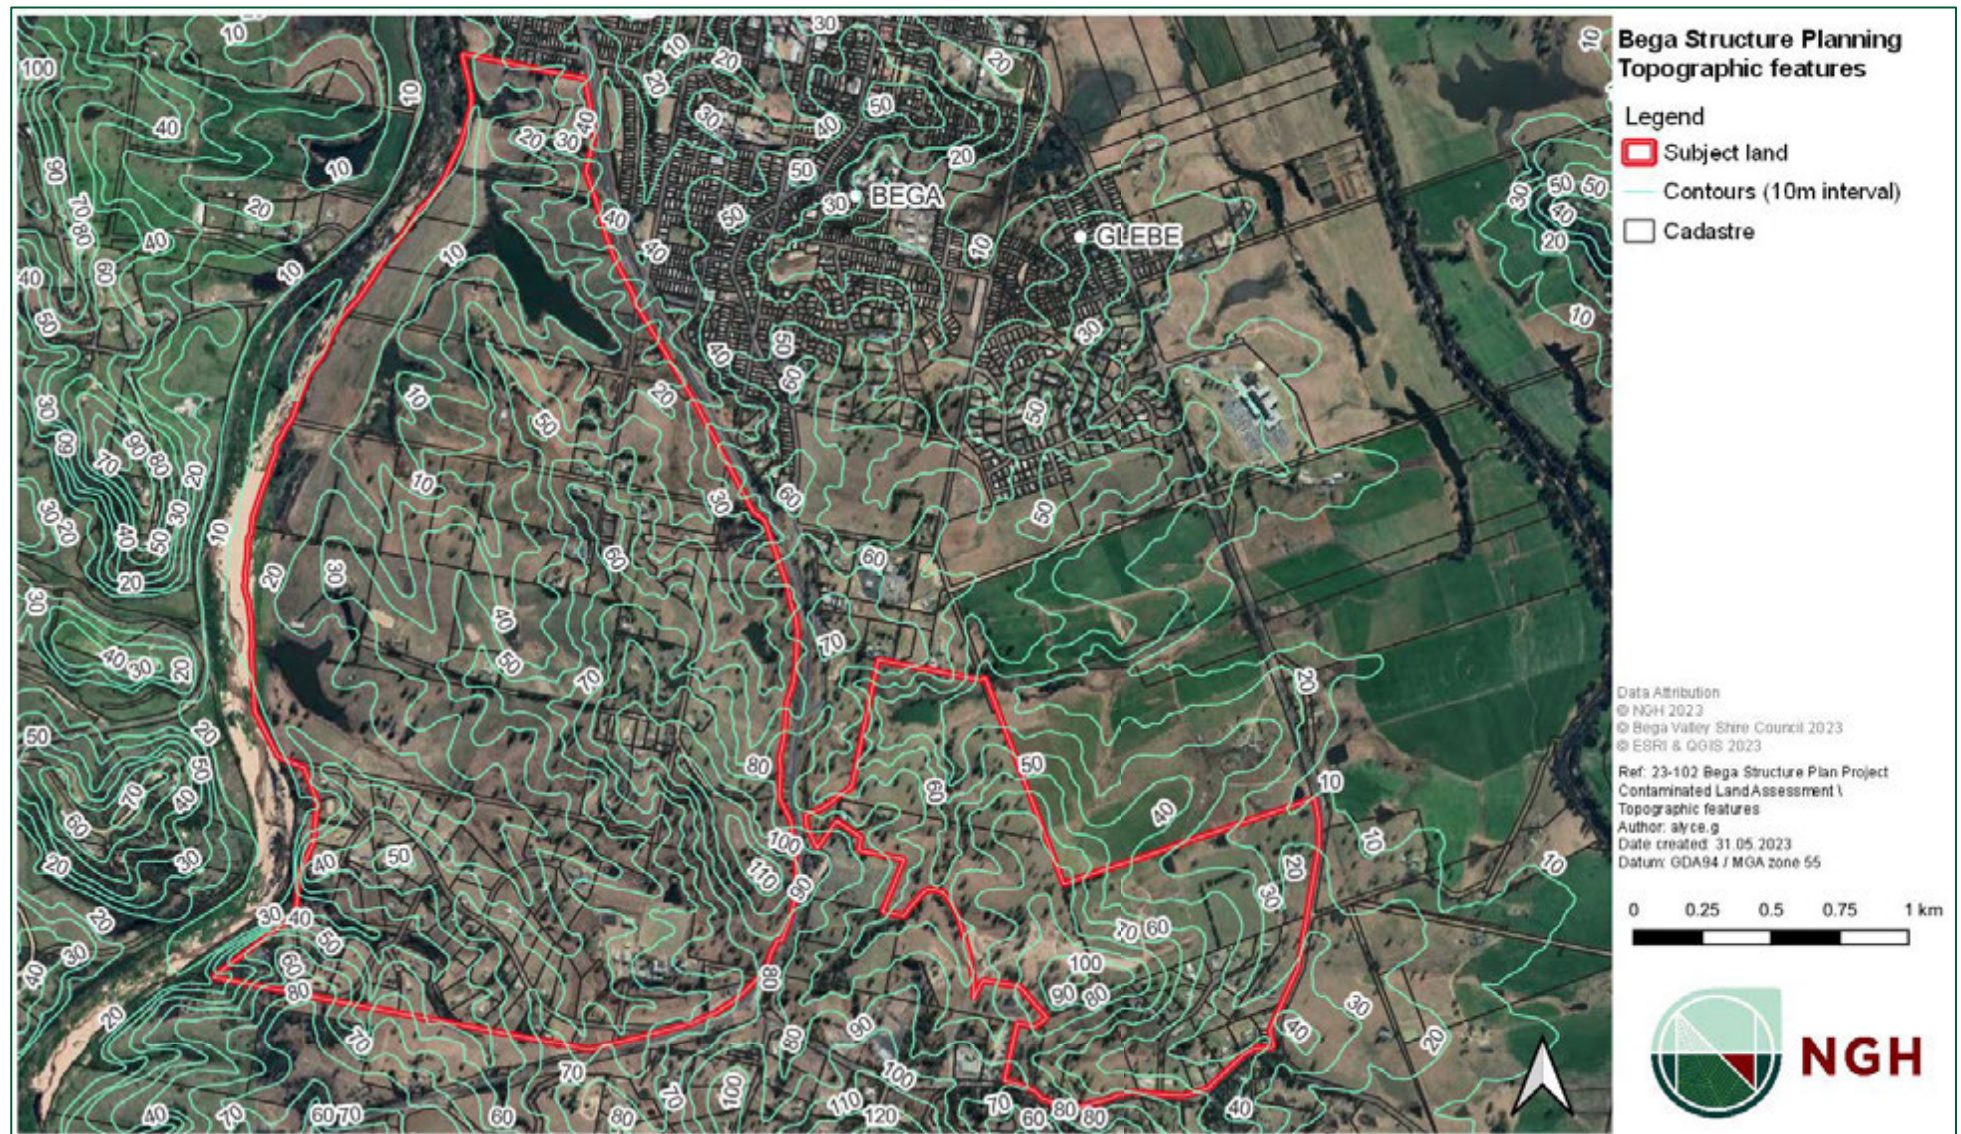

Figure 4-1 Topographic features

4.4. Hydrogeology and groundwater

The subject land is mapped as containing porous, extensive, highly producing aquifers, as well as fractured or fissured, extensive aquifers of low to moderate productivity.

Six (6) groundwater bores occur within the subject land:

- GW104498 (functional), with a bore depth of 5 m
- GW111366 (functional), with a bore depth of 31.4 m
- GW107934 (functional), with a bore depth of 43.5 m
- GW070241 (status unknown), with a bore depth of 18 m
- GW033545 (status unknown), with a bore depth of 22.9 m
- GW108258 (status unknown), with a bore depth of 10 m.

Refer to Figure 4-2 for bores located onsite.

There are an additional 55 groundwater bores mapped within 2 km of the subject land. Refer to Appendix A for the locations of these bores.

4.5. Environmental sensitive receivers

As described in Section 4.1, the Bega River borders the western portion of the subject land. A number of unnamed tributaries of the Bega River traverse the subject land, refer to Figure 1-1.

Parbery Creek intersects the eastern portion of the subject land. A number of unnamed tributaries of the Parbery Creek traverse the subject land. Parbery Creek is a tributary of the Bega River.

There are no National Parks, State Forests or Reserves located in proximity to the subject land.

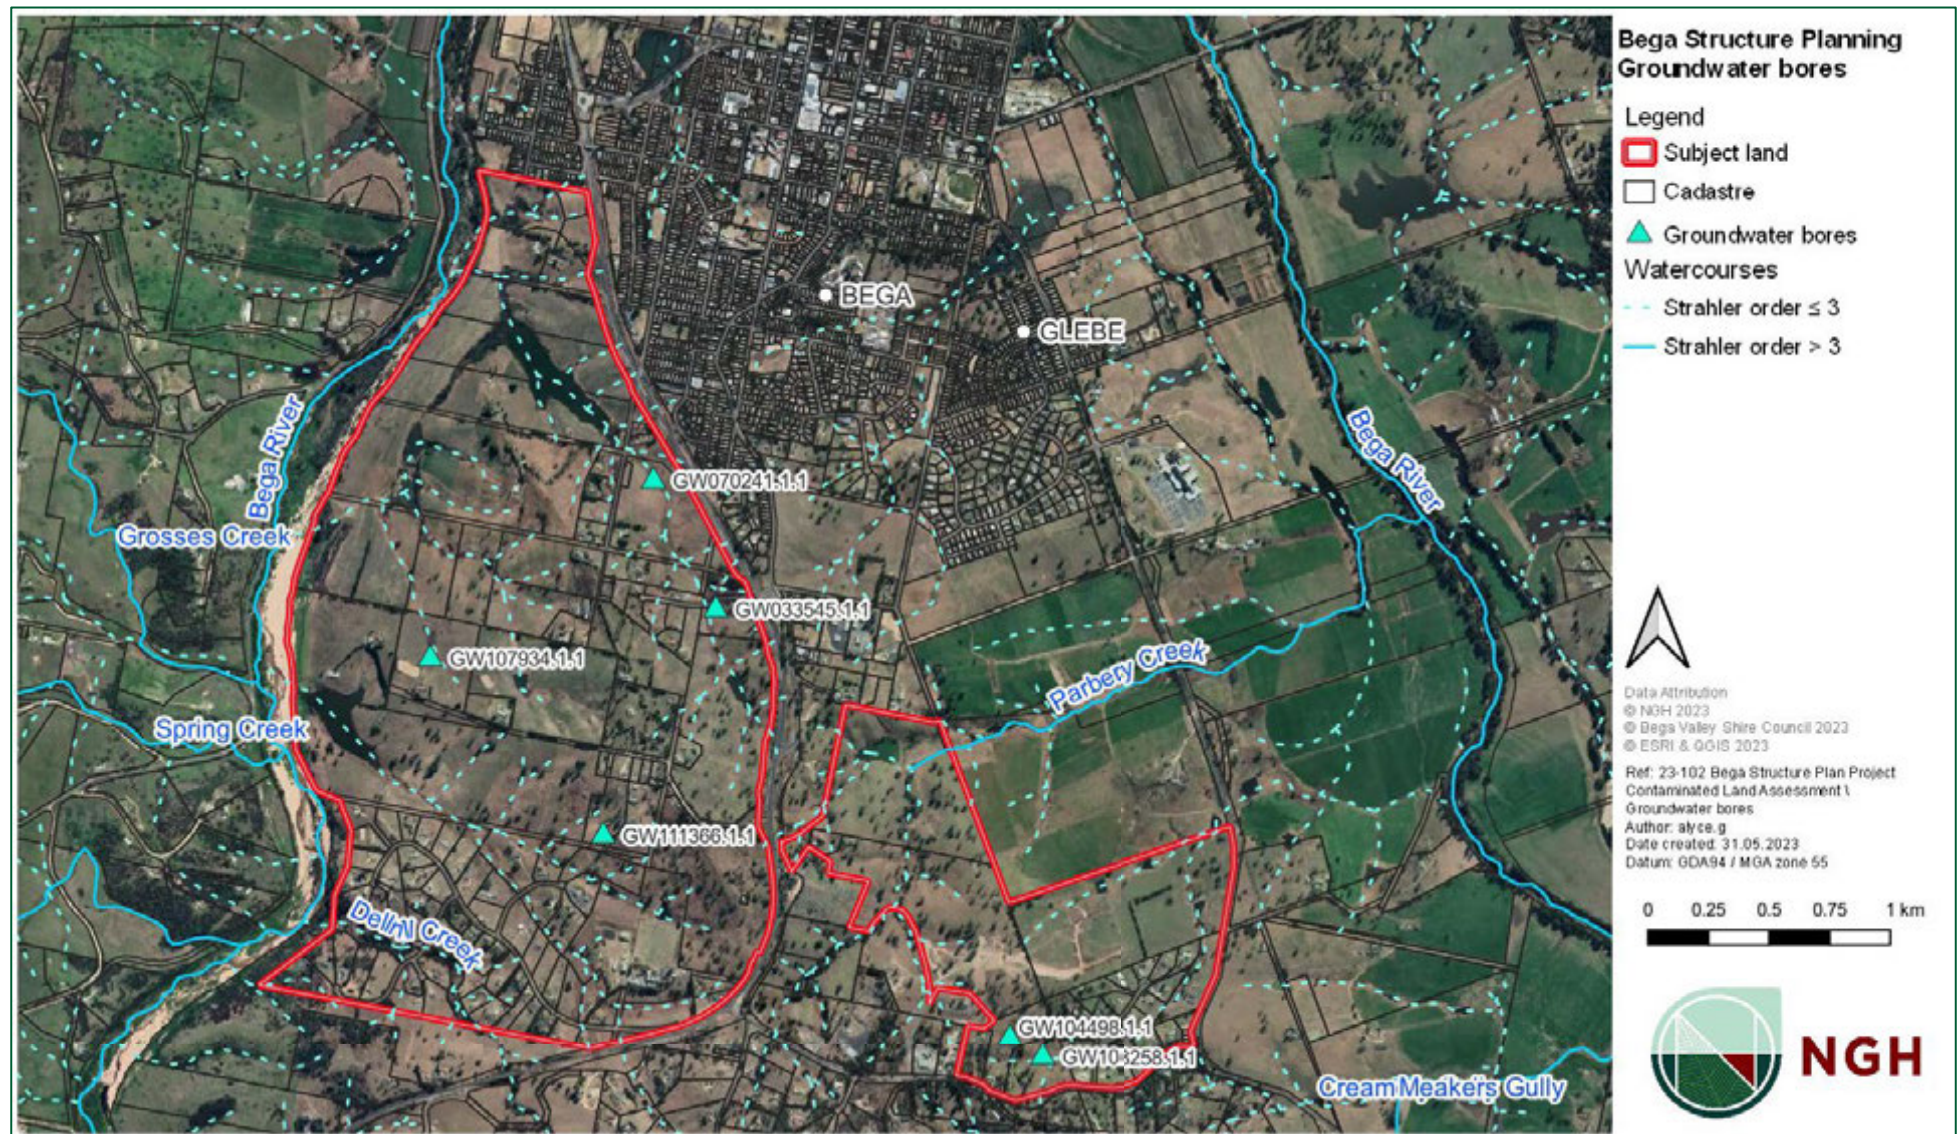

Figure 4-2 Groundwater bores located within the subject land

5. Potential areas of environmental concern

The site history review, site inspection and review of anecdotal information identified the following potential Areas of Environmental Concern (AEC) and Contaminants of Potential Concern (CoPC).

AEC 1 – Hazardous building materials

A number of residences and other structures were constructed between the 1940s – 1980s.

Buildings constructed within this period can contain asbestos, therefore the following CoPC have been included:

- Asbestos containing material (ACM)
- Asbestos fibres

AEC2 – On and offsite contamination from motor garages and service stations

Four motor garages and / or service stations were identified within the Lotsearch report that occur within and nearby to the subject land.

On-site motor garages and service stations included:

- A premises registered to Slater Max and Co. in 1991.
- Two Lakes Service Station, located on Tathra Road in 1970, is located along the eastern boundary of the subject land.

Historical aerial imagery was not able to confirm the exact location of these premises; therefore, it is possible that the sites intersected the subject land.

Off-site motor garages and service stations included:

- A premise registered to the Balmain Brothers on Auckland Street in 1982, is located approximately 170 m north east of the subject land. There is an Ampol currently operating in proximity to this listing
- A premise registered to Momsen W. J. on Fairview Street in 1950, is located approximately 200 m north of the subject land.

Motor garages and service stations are associated with the following CoPC:

- Benzene, Toluene, Ethylbenzene, Xylene, Ethylbenzene and Naphthalene (BTEXN)
- Total Recoverable Hydrocarbons (TRHs)
- Polycyclic Aromatic Hydrocarbons (PAHs)
- Polychlorinated Biphenyls (PCBs)
- Volatile Organic Carbons (VOCs)
- Heavy metals.

AEC 3 – Offsite contamination from the upgradient cemetery

Bega cemetery is located upgradient and immediately south of the eastern portion of the subject land.

Cemeteries are associated with the following CoPC:

- Phenols
- Heavy metals

AECs for the subject land have been mapped in Figure 5-1.

5.1. Other potential offsite contamination sources

A number of other potential off-site contamination sources occur within proximity to the subject land, including:

- The Bega Solid Waste Depot: This service, located immediately south of the eastern portion of the subject land, offers cardboard recycling, secure document destruction, septic and grease trap servicing, and construction and demolition waste services (Cleanaway, 2023)
- South Coast Diesel and Hydraulics (SCDH): This development, located approximately 200 m north of the eastern portion of the subject land, provides mechanical repairs and servicing for heavy mobile equipment (SCDH, 2023)
- Bega Valley Cheese (BVC) Pty Ltd: A number of properties, located to the northeast of the western portion of the subject land, are involved in the licenced activity of dairy processing for BVC (refer to Appendix A). Based on reviews of the aerial imagery available, it is unlikely that cattle are kept onsite.

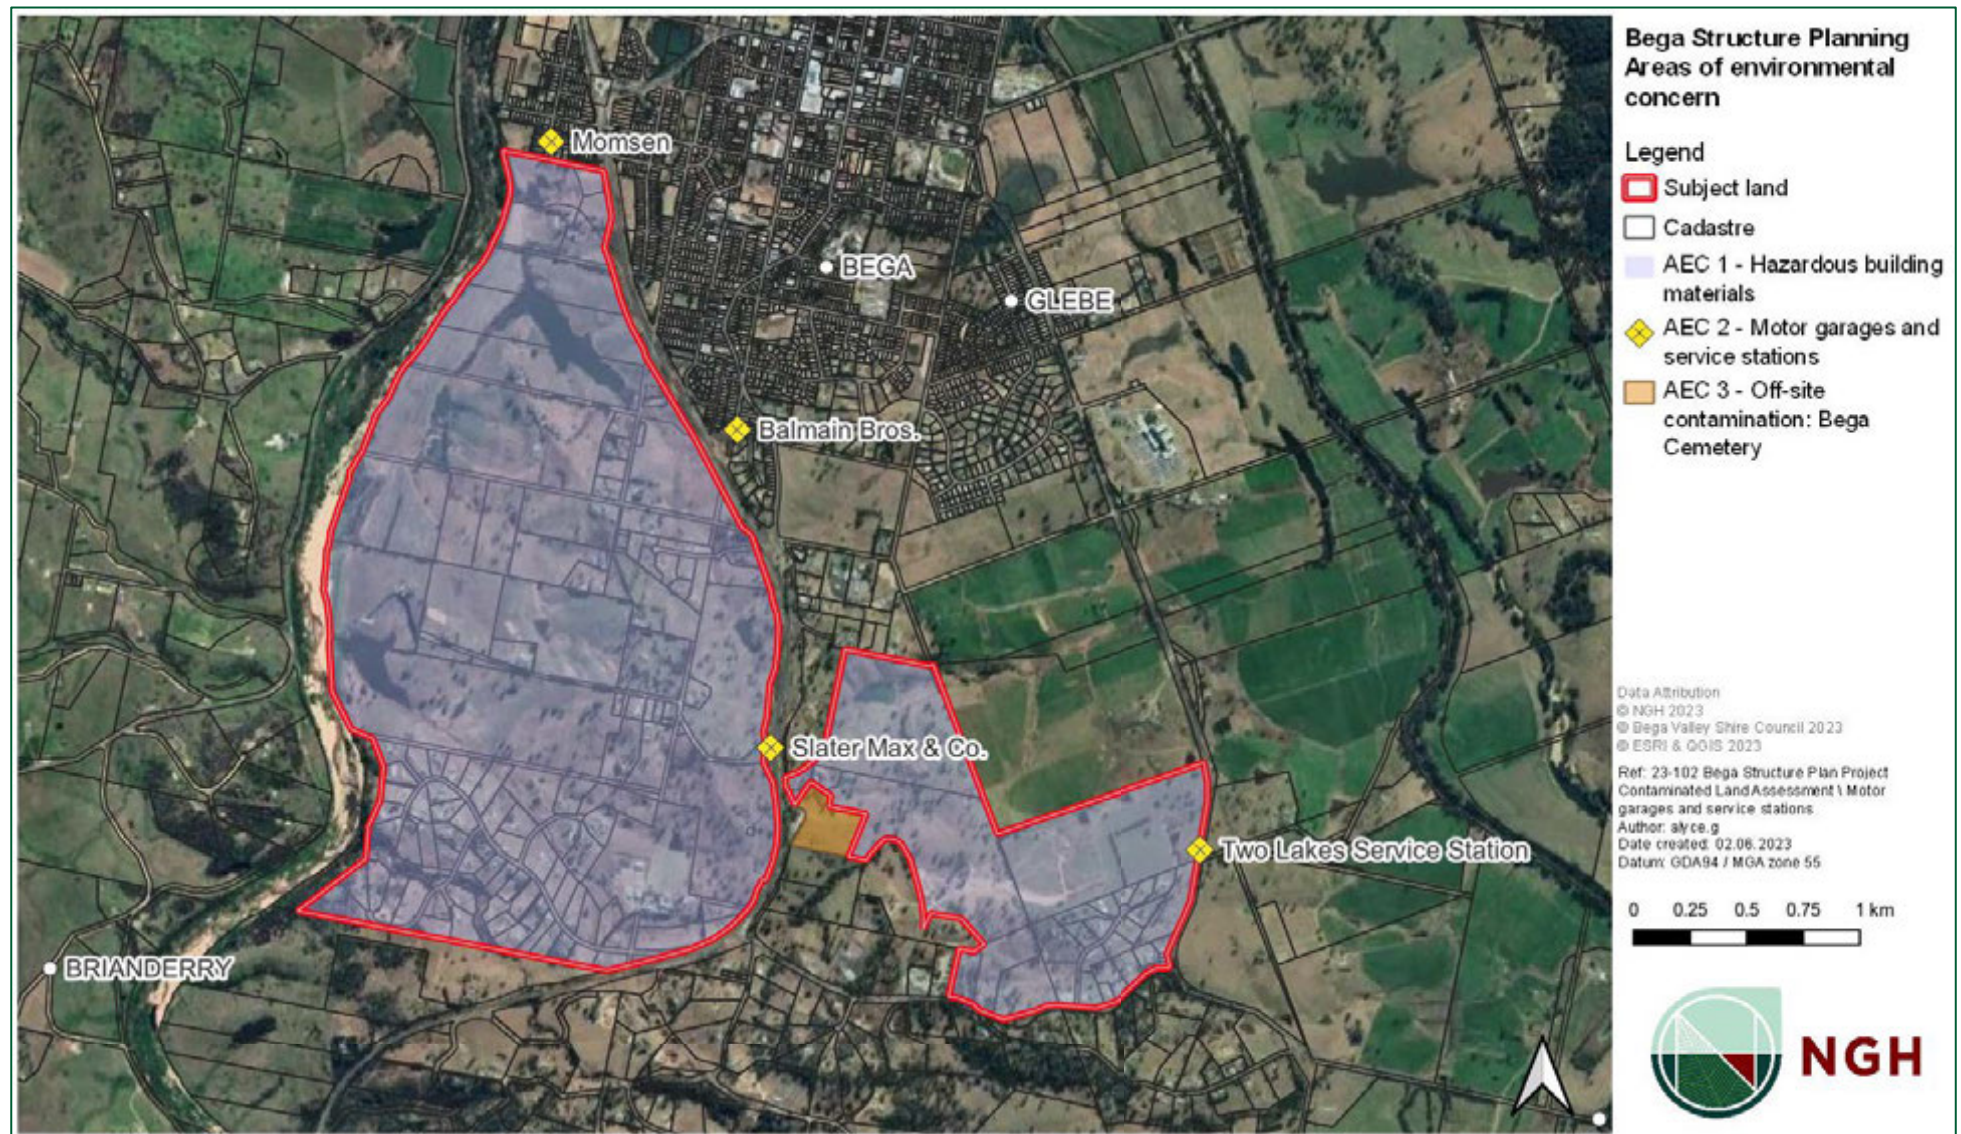

Figure 5-1 AECs for the subject land

6. Preliminary Conceptual Site Model

The site history review, database searches and previous environmental investigations identified AECs with potential contaminating pathways. A preliminary Conceptual Site Model (CSM) has been prepared to develop an understanding of the contamination risk to the subject land (refer to Table 6-1).

Table 6-1 Preliminary CSM

Areas of Environmental Concern (AEC)	Potential Contaminants of Concern	Transport Mechanisms	Potential Exposure Pathways	Potential Receptors	Risk rating	Summary Comments
AEC1: Hazardous building materials	- ACM - Asbestos fibres	- Disturbance - airborne release - Leachability into surficial and sub soils and transport via shallow groundwater flow or preferential pathways	- Inhalation of dust - Ingestion - Dermal contact	Human receptors: Residents, construction workers, intrusive maintenance workers	MEDIUM RISK	A number of residences and other structures were constructed between the 1940s – 1980s. Further assessment is required to determine whether asbestos is present within the subject land.
				Off-site human receptors: Adjacent land users	MEDIUM RISK	
				Environmentally sensitive receptors: Terrestrial organisms and plants and freshwater ecology in neighbouring water systems: The Bega River (7 th order watercourse) Parbery Creek (4 th order watercourse)	MEDIUM RISK	

Areas of Environmental Concern (AEC)	Potential Contaminants of Concern	Transport Mechanisms	Potential Exposure Pathways	Potential Receptors	Risk rating	Summary Comments
AEC2 – On and off-site contamination (motor garages and service stations)	• BTEXN • TRHs • PAHs • PCBs • VOCs • Heavy metals	• Disturbance - airborne release • Leachability into surficial and sub soils and transport via shallow groundwater flow or preferential pathways	• Inhalation of dust • Ingestion • Dermal contact	Human receptors: Residents, construction workers, intrusive maintenance workers	MEDIUM RISK	Two motor garages and / or service stations were identified along the boundaries of the subject land. No identifiable infrastructure was visible when reviewing the historical aerial imagery. Noting this, it is difficult to ascertain what activities might have occurred here or the CoPC that might be present in these locations. Two listings for motor garages and service stations, as well as an Ampol Service Station, also occur within 200 m of the subject land. At both locations, the land slopes downwards, towards the subject land. Therefore, the migration of CoPC (BTEXN, TRHs, PAHs, PCBs and heavy metals) from underground fuel storage tanks cannot be ruled out.
				Off-site human receptors: Adjacent land users	MEDIUM RISK	
				Environmentally sensitive receptors: Terrestrial organisms and plants and freshwater ecology in neighbouring water systems: The Bega River (7 th order watercourse) Parbery Creek (4 th order watercourse)	MEDIUM RISK	
AEC3 – Offsite contamination from upgradient cemetery	• Phenols • Heavy metals	• Disturbance - airborne release • Leachability into surficial and sub soils and transport via shallow groundwater flow or preferential pathways	• Inhalation of dust • Ingestion • Dermal contact	Human receptors: Residents, construction workers, intrusive maintenance workers	LOW RISK	Bega cemetery is located upgradient and immediately south of the eastern portion of the subject land.
				Off-site human receptors: Adjacent land users	LOW RISK	
				Environmentally sensitive	LOW RISK	

Areas of Environmental Concern (AEC)	Potential Contaminants of Concern	Transport Mechanisms	Potential Exposure Pathways	Potential Receptors	Risk rating	Summary Comments
				receptors: Terrestrial organisms and plants and freshwater ecology in neighbouring water systems: The Bega River (7 th order watercourse) Parbery Creek (4 th order watercourse)		

7. Discussion

The results of this PSI indicate that the subject land has been used for the purposes of residential development and grazing (native and modified vegetation). A water supply system occurs to the southeast of the western portion of the subject land. The surrounding land is largely utilised for the purposes of residential development (the town of Bega), and agricultural purposes, namely grazing.

The subject land is situated on brown and red friable earths, which are associated with the Yellow Podzolic Soils (less fertile) and Alluvial Soils (medium to heavy textured) GSGs. The subject land consists of gently rolling hills, with elevations ranging from 10 – 110 m AHD.

A number of unnamed drainage lines and waterbodies flow through the western portion of the subject land, before feeding into the Bega River, a 7th order watercourse, which borders the western boundary of the subject land. Similarly, a number of unnamed drainage lines and waterbodies flow through the eastern portion of the subject land, before feeding into Parbery Creek, a 4th order watercourse.

A search of the Contaminated Land Record returned no records for the subject land. Similarly, the subject land is not listed as a contaminated site within NSW, nor does it contain a former gasworks development.

The PSI identified three potential AECs with CoPC across the site, including:

- AEC1 – Hazardous building materials: After reviewing the historical imagery, it is known that a number of residences and other structures were constructed between the 1940s – 1980s. Buildings constructed within this period can contain asbestos. Further assessment is required to determine whether ACM or asbestos fibres are present within the subject land
- AEC2 – On and off-site contamination from motor garages and service stations: Four motor garages and / or service stations were identified within the Lotsearch report. Motor garages and service stations are associated with the following CoPC: BTEXN, TRHs, PAHs, PCBs and heavy metals.
Two motor garages and / or service stations were identified along the boundaries of the subject land. No identifiable infrastructure was visible when reviewing the historical aerial imagery. Further assessment is required to determine the presence of these motor garages and / or service stations.
- AEC3 – Offsite contamination from upgradient cemetery: Bega Cemetery is located upgradient and immediately south of the eastern portion of the subject land. Cemeteries are associated with CoPC such as phenols and heavy metals. Further assessment is required to determine whether CoPC from the cemetery have migrated into the subject land.

7.1. Data gaps

Based on the findings of this PSI, the following data gaps have been identified:

- The history of the subject land is limited by the information sources as described in Section 3 of the PSI
- A site walkover was not conducted during the preparation of this PSI
- The extent and composition of any fill material that might occur within the subject land, as a result of prior development, is unknown.

8. Conclusion and recommendations

8.1. Conclusion

The results of the PSI indicate that the subject land has been largely used for residential development, as well as grazing (native and modified vegetation). A water supply system occurs to the southeast of the western portion of the subject land. The surrounding land is largely utilised for the purposes of residential development (the town of Bega), and agricultural purposes, namely grazing.

The site history review identified the following AECs for the subject land:

- AEC1 – Hazardous building materials
- AEC2 – On and offsite contamination from motor garages and service stations
- AEC3 – Offsite contamination from the upgradient cemetery

8.2. Recommendations

Based on the findings of the PSI, it is recommended that a targeted site walkover be conducted, to determine:

- The location and extent of the two on-site motor garages / service stations
- The presence / absence of hazardous building materials within developed areas of the subject land.

Targeted survey areas will be determined using historic aerial imagery, prior to the site visit.

The findings of the site walkover will inform further assessment of the site, including targeted sampling locations. This will include land located along the boundary of the cemetery.

Contaminated Land

Multiple Lots, Bega, NSW 2550

List of NSW contaminated sites notified to EPA

Records from the NSW EPA Contaminated Land list within the dataset buffer:

Map Id	Site	Address	Suburb	Activity	Management Class	Status	Location Confidence	Dist	Direction
104	Coles Express (former Caltex) Service Station	2-6 Swan (Corner Carp) STREET	Bega	Service Station	Regulation under CLM Act not required	Current EPA List	Premise Match	850m	North

The values within the EPA site management class in the table above, are given more detailed explanations in the table below:

EPA site management class	Explanation
Contamination being managed via the planning process (EP&A Act)	The EPA has completed an assessment of the contamination and decided that the contamination is significant enough to warrant regulation. The contamination of this site is managed by the consent authority under the Environmental Planning and Assessment Act 1979 (EP&A Act) planning approval process, with EPA involvement as necessary to ensure significant contamination is adequately addressed. The consent authority is typically a local council or the Department of Planning and Environment.
Contamination currently regulated under CLM Act	The EPA has completed an assessment of the contamination and decided that the contamination is significant enough to warrant regulation under the Contaminated Land Management Act 1997 (CLM Act). Management of the contamination is regulated by the EPA under the CLM Act. Regulatory notices are available on the EPA's Contaminated Land Public Record of Notices.
Contamination currently regulated under POEO Act	The EPA has completed an assessment of the contamination and decided that the contamination is significant enough to warrant regulation. Management of the contamination is regulated under the Protection of the Environment Operations Act 1997 (POEO Act). The EPA's regulatory actions under the POEO Act are available on the POEO public register.
Contamination formerly regulated under the CLM Act	The EPA has determined that the contamination is no longer significant enough to warrant regulation under the Contaminated Land Management Act 1997 (CLM Act). The contamination was addressed under the CLM Act.
Contamination formerly regulated under the POEO Act	The EPA has determined that the contamination is no longer significant enough to warrant regulation. The contamination was addressed under the Protection of the Environment Operations Act 1997 (POEO Act).
Contamination was addressed via the planning process (EP&A Act)	The EPA has determined that the contamination is no longer significant enough to warrant regulation. The contamination was addressed by the appropriate consent authority via the planning process under the Environmental Planning and Assessment Act 1979 (EP&A Act).
Ongoing maintenance required to manage residual contamination (CLM Act)	The EPA has determined that ongoing maintenance, under the Contaminated Land Management Act 1997 (CLM Act), is required to manage the residual contamination. Regulatory notices under the CLM Act are available on the EPA's Contaminated Land Public Record of Notices.
Regulation being finalised	The EPA has completed an assessment of the contamination and decided that the contamination is significant enough to warrant regulation under the Contaminated Land Management Act 1997. A regulatory approach is being finalised.
Regulation under the CLM Act not required	The EPA has completed an assessment of the contamination and decided that regulation under the Contaminated Land Management Act 1997 is not required.
Under assessment	The contamination is being assessed by the EPA to determine whether regulation is required. The EPA may require further information to complete the assessment. For example, the completion of management actions regulated under the planning process or Protection of the Environment Operations Act 1997. Alternatively, the EPA may require information via a notice issued under s77 of the Contaminated Land Management Act 1997 or issue a Preliminary Investigation Order.

Geological Units

What are the Geological Units within the dataset buffer?

Unit Code	Unit Name	Description	Unit Stratigraphy	Age	Dominant Lithology	Distance
Dr_b	Brogo Granodiorite	Uniform, massive, fine-grained biotite hornblende, K-feldspar, quartz-plagioclase granodiorite.	Cobargo Supersuite///Brogo Granodiorite//	Early Devonian (base) to Early Devonian (top)	Granodiorite	0m
Q_al	Alluvial levee/overbank deposits	Fluvially deposited fine- to medium-grained lithic to quartz-rich sand, silt, clay.	/Alluvium//Alluvial levee/overbank deposits//	Quaternary (base) to Now (top)	Clastic sediment	0m
Q_av	Alluvial valley deposits	Silt, clay, (fluvially deposited) lithic to quartz-lithic sand, gravel.	/Alluvium//Alluvial valley deposits//	Quaternary (base) to Now (top)	Clastic sediment	0m
QH_l	Claypan and lacustrine deposits	Friable to plastic, finely laminated grey clay, silty clay, humic clay, grey paleosols; locally includes medium- to fine-grained sand.	/Claypan and lacustrine deposits///	Holocene (base) to Now (top)	Clastic sediment	0m
Oada	Abercrombie Formation	Brown and buff to grey, thin- to thick-bedded, fine- to coarse-grained mica-quartz (±feldspar) sandstone, interbedded with laminated siltstone and mudstone. Sporadic chert-rich units.	Lachlan Supergroup/Adaminaby Group//Abercrombie Formation//	La2b (Lancefieldian) (base) to Da4 (Darriwilian) (top)	Sandstone	0m
Q_ab	Alluvial backswamp deposits	Organic-rich mud, peat, silt, clay.	/Alluvium//Alluvial backswamp deposits//	Quaternary (base) to Now (top)	Organic rich sediment	0m
Q_acb	Alluvial channel deposits - in-channel bar	Polymictic to lithic to quartz-rich sand and gravel; silt and clay; polymictic pebble- to cobble- in-channel imbricated lag and bar deposits with interstitial sand, silt and clay.	/Alluvium//Alluvial channel deposits//Alluvial channel deposits - in-channel bar/	Quaternary (base) to Now (top)	Clastic sediment	0m
Q_acw	Alluvial channel deposits - subaqueous	Fluvially deposited sand, gravel, silt, clay.	/Alluvium//Alluvial channel deposits//Alluvial channel deposits- subaqueous/	Quaternary (base) to Now (top)	Clastic sediment	0m
QH_af	Alluvial floodplain deposits	Silt, very fine- to medium-grained lithic to quartz-rich sand, clay.	/Alluvium//Alluvial floodplain deposits//	Holocene (base) to Now (top)	Clastic sediment	101m
Q_af	Alluvial floodplain deposits	Silt, very fine- to medium-grained lithic to quartz-rich sand, clay.	/Alluvium//Alluvial floodplain deposits//	Quaternary (base) to Now (top)	Clastic sediment	108m
Dk_k	Kameruka Granodiorite	Biotite granodiorite.	Kameruka Supersuite///Kameruka Granodiorite//	Early Devonian (base) to Early Devonian (top)	Granodiorite	355m
Q_avf	Alluvial fan deposits	Fluvially-deposited quartz-lithic sand, silt, gravel, clay.	/Alluvium//Alluvial valley deposits//Alluvial fan deposits/	Quaternary (base) to Now (top)	Clastic sediment	556m
Q_ap	Alluvial palaeochannel deposits	Poorly sorted gravels, clayey sand and variably magnetic pisoliths.	/Alluvium//Alluvial palaeochannel deposits//	Quaternary (base) to Now (top)	Gravel	663m

Land Zoning

What EPI Land Zones exist within the dataset buffer?

Zone	Description	Purpose	EPI Name	Published Date	Commenced Date	Currency Date	Amendment	Distance	Direction
RU2	Rural Landscape		Bega Valley Local Environmental Plan 2013	16/02/2018	16/02/2018	26/08/2022	Amendment No 25	0m	On-site
R5	Large Lot Residential		Bega Valley Local Environmental Plan 2013	16/02/2018	16/02/2018	26/08/2022	Amendment No 25	0m	On-site
C2	Environmental Conservation		Bega Valley Local Environmental Plan 2013	05/11/2021	01/12/2021	26/08/2022	Standard Instrument (Local Environmental Plans) Amendment (Land Use Zones) Order 2021	0m	On-site
IN1	General Industrial		Bega Valley Local Environmental Plan 2013	02/08/2013	02/08/2013	26/08/2022		0m	On-site
SP2	Infrastructure	Water Supply System	Bega Valley Local Environmental Plan 2013	02/08/2013	02/08/2013	26/08/2022		0m	On-site
RU1	Primary Production		Bega Valley Local Environmental Plan 2013	21/05/2021	21/05/2021	26/08/2022	Amendment No 35	0m	South
IN1	General Industrial		Bega Valley Local Environmental Plan 2013	13/02/2015	13/02/2015	26/08/2022	Amendment No 5	0m	South East
SP1	Special Activities	Cemetery	Bega Valley Local Environmental Plan 2013	02/08/2013	02/08/2013	26/08/2022		0m	South East
RE2	Private Recreation		Bega Valley Local Environmental Plan 2013	24/10/2014	24/10/2014	26/08/2022	Amendment No 2	0m	East
SP2	Infrastructure	Classified Road	Bega Valley Local Environmental Plan 2013	02/08/2013	02/08/2013	26/08/2022		0m	North
IN2	Light Industrial		Bega Valley Local Environmental Plan 2013	21/05/2021	21/05/2021	26/08/2022	Amendment No 35	0m	East
IN2	Light Industrial		Bega Valley Local Environmental Plan 2013	02/08/2013	02/08/2013	26/08/2022		0m	South East
R2	Low Density Residential		Bega Valley Local Environmental Plan 2013	02/08/2013	02/08/2013	26/08/2022		0m	North
RU2	Rural Landscape		Bega Valley Local Environmental Plan 2013	02/08/2013	02/08/2013	26/08/2022		0m	South East
IN1	General Industrial		Bega Valley Local Environmental Plan 2013	02/08/2013	02/08/2013	26/08/2022		40m	South East
C4	Environmental Living		Bega Valley Local Environmental Plan 2013	05/11/2021	01/12/2021	26/08/2022	Standard Instrument (Local Environmental Plans) Amendment (Land Use Zones) Order 2021	50m	South
R2	Low Density Residential		Bega Valley Local Environmental Plan 2013	21/05/2021	21/05/2021	26/08/2022	Amendment No 35	61m	North East
IN1	General Industrial		Bega Valley Local Environmental Plan 2013	02/08/2013	02/08/2013	26/08/2022		64m	South East
R5	Large Lot Residential		Bega Valley Local Environmental Plan 2013	02/08/2013	02/08/2013	26/08/2022		67m	North
IN2	Light Industrial		Bega Valley Local Environmental Plan 2013	21/05/2021	21/05/2021	26/08/2022	Amendment No 35	76m	East
RU2	Rural Landscape		Bega Valley Local Environmental Plan 2013	02/08/2013	02/08/2013	26/08/2022		81m	South East
RE1	Public Recreation		Bega Valley Local Environmental Plan 2013	02/08/2013	02/08/2013	26/08/2022		82m	North
IN2	Light Industrial		Bega Valley Local Environmental Plan 2013	02/08/2013	02/08/2013	26/08/2022		85m	North

Zone	Description	Purpose	EPI Name	Published Date	Commenced Date	Currency Date	Amendment	Distance	Direction
SP2	Infrastructure	Water Supply System	Bega Valley Local Environmental Plan 2013	21/05/2021	21/05/2021	26/08/2022	Amendment No 35	96m	East
RU4	Primary Production Small Lots		Bega Valley Local Environmental Plan 2013	21/05/2021	21/05/2021	26/08/2022	Amendment No 35	106m	North West
IN2	Light Industrial		Bega Valley Local Environmental Plan 2013	03/03/2017	03/03/2017	26/08/2022	Amendment No 20	111m	North East

Groundwater Dependent Ecosystems Atlas

Type	GDE Potential	Geomorphology	Ecosystem Type	Aquifer Geology	Distance	Direction
Terrestrial	Low potential GDE - from regional studies	Deeply dissected steeply sloping plateau margin in metamorphics and granite. Bounded in the west by the Great Escarpment.	Vegetation		0m	On-site
Aquatic	Moderate potential GDE - from national assessment	West	GORDON RIVER		0m	On-site
Aquatic	Moderate potential GDE - from national assessment	King	ARTHUR RIVER		21m	North West
Terrestrial	High potential GDE - from regional studies	Deeply dissected steeply sloping plateau margin in metamorphics and granite. Bounded in the west by the Great Escarpment.	Vegetation		105m	West
Terrestrial	Moderate potential GDE - from regional studies	Deeply dissected steeply sloping plateau margin in metamorphics and granite. Bounded in the west by the Great Escarpment.	Vegetation		579m	South West

Location Confidences

Where Lotsearch has had to georeference features from supplied addresses, a location confidence has been assigned to the data record. This indicates a confidence to the positional accuracy of the feature. Where applicable, a code is given under the field heading “LC” or “LocConf”. These codes lookup to the following location confidences:

LC Code	Location Confidence
Premise Match	Georeferenced to the site location / premise or part of site
Area Match	Georeferenced to an approximate or general area
Road Match	Georeferenced to a road or rail corridor
Road Intersection	Georeferenced to a road intersection
Buffered Point	A point feature buffered to x metres
Adjacent Match	Land adjacent to a georeferenced feature
Network of Features	Georeferenced to a network of features
Suburb Match	Georeferenced to a suburb boundary
As Supplied	Spatial data supplied by provider

USE OF REPORT - APPLICABLE TERMS

The following terms apply to any person (End User) who is given the Report by the person who purchased the Report from Lotsearch Pty Ltd (ABN: 89 600 168 018) (Lotsearch) or who otherwise has access to the Report (Terms). The contract terms that apply between Lotsearch and the purchaser of the Report are specified in the order form pursuant to which the Report was ordered and the terms set out below are of no effect as between Lotsearch and the purchaser of the Report.

1. End User acknowledges and agrees that:
 - (a) the Report is compiled from or using content (**Third Party Content**) which is comprised of:
 - (i) content provided to Lotsearch by third party content suppliers with whom Lotsearch has contractual arrangements or content which is freely available or methodologies licensed to Lotsearch by third parties with whom Lotsearch has contractual arrangements (**Third Party Content Suppliers**); and
 - (ii) content which is derived from content described in paragraph (i);
 - (b) Neither Lotsearch nor Third Party Content Suppliers takes any responsibility for or give any warranty in relation to the accuracy or completeness of any Third Party Content included in the Report including any contaminated land assessment or other assessment included as part of a Report;
 - (c) the Third Party Content Suppliers do not constitute an exhaustive set of all repositories or sources of information available in relation to the property which is the subject of the Report (**Property**) and accordingly neither Lotsearch nor Third Party Content Suppliers gives any warranty in relation to the accuracy or completeness of the Third Party Content incorporated into the report including any contaminated land assessment or other assessment included as part of a Report;
 - (d) Reports are generated at a point in time (as specified by the date/time stamp appearing on the Report) and accordingly the Report is based on the information available at that point in time and Lotsearch is not obliged to undertake any additional reporting to take into consideration any information that may become available between the point in time specified by the date/time stamp and the date on which the Report was provided by Lotsearch to the purchaser of the Report;
 - (e) Reports must be used or reproduced in their entirety and End User must not reproduce or make available to other persons only parts of the Report;
 - (f) Lotsearch has not undertaken any physical inspection of the property;
 - (g) neither Lotsearch nor Third Party Content Suppliers warrants that all land uses or features whether past or current are identified in the Report;
 - (h) the Report does not include any information relating to the actual state or condition of the Property;
 - (i) the Report should not be used or taken to indicate or exclude actual fitness or unfitness of Land or Property for any particular purpose
 - (j) the Report should not be relied upon for determining saleability or value or making any other decisions in relation to the Property and in particular should not be taken to be a rating or assessment of the desirability or market value of the property or its features; and
 - (k) the End User should undertake its own inspections of the Land or Property to satisfy itself that there are no defects or failures
2. The End User may not make the Report or any copies or extracts of the report or any part of it available to any other person. If End User wishes to provide the Report to any other person or make extracts or copies of the Report, it must contact the purchaser of the Report before doing so to ensure the proposed use is consistent with the contract terms between Lotsearch and the purchaser.
3. Neither Lotsearch (nor any of its officers, employees or agents) nor any of its Third Party Content Suppliers will have any liability to End User or any person to whom End User provides the Report and End User must not represent that Lotsearch or any of its Third Party Content Suppliers accepts liability to any such person or make any other representation to any such person on behalf of Lotsearch or any Third Party Content Supplier.
4. The End User hereby to the maximum extent permitted by law:
 - (a) acknowledges that the Lotsearch (nor any of its officers, employees or agents), nor any of its Third Party Content Supplier have any liability to it under or in connection with the

- Report or these Terms;
- (b) waives any right it may have to claim against Third Party Content Supplier in connection with the Report, or the negotiation of, entry into, performance of, or termination of these Terms; and
 - (c) releases each Third Party Content Supplier from any claim it may have otherwise had in connection with the Report, or the negotiation of, entry into, performance of, or termination of these Terms.
5. The End User acknowledges that any Third Party Supplier shall be entitled to plead the benefits conferred on it under clause 4, despite not being a party to these terms.
 6. End User must not remove any copyright notices, trade marks, digital rights management information, other embedded information, disclaimers or limitations from the Report or authorise any person to do so.
 7. End User acknowledges and agrees that Lotsearch and Third Party Content Suppliers retain ownership of all copyright, patent, design right (registered or unregistered), trade marks (registered or unregistered), database right or other data right, moral right or know how or any other intellectual property right in any Report or any other item, information or data included in or provided as part of a Report.
 8. To the extent permitted by law and subject to paragraph 9, all implied terms, representations and warranties whether statutory or otherwise relating to the subject matter of these Terms other than as expressly set out in these Terms are excluded.
 9. Subject to paragraph 6, Lotsearch excludes liability to End User for loss or damage of any kind, however caused, due to Lotsearch's negligence, breach of contract, breach of any law, in equity, under indemnities or otherwise, arising out of all acts, omissions and events whenever occurring.
 10. Lotsearch acknowledges that if, under applicable State, Territory or Commonwealth law, End User is a consumer certain rights may be conferred on End User which cannot be excluded, restricted or modified. If so, and if that law applies to Lotsearch, then, Lotsearch's liability is limited to the greater of an amount equal to the cost of resupplying the Report and the maximum extent permitted under applicable laws.
 11. Subject to paragraph 9, neither Lotsearch nor the End User is liable to the other for:
 - (a) any indirect, incidental, consequential, special or exemplary damages arising out of or in relation to the Report or these Terms; or
 - (b) any loss of profit, loss of revenue, loss of interest, loss of data, loss of goodwill or loss of business opportunities, business interruption arising directly or indirectly out of or in relation to the Report or these Terms,
 irrespective of how that liability arises including in contract or tort, liability under indemnity or for any other common law, equitable or statutory cause of action or otherwise.
 12. These Terms are subject to New South Wales law.

USE OF REPORT - APPLICABLE TERMS

The following terms apply to any person (End User) who is given the Report by the person who purchased the Report from Lotsearch Pty Ltd (ABN: 89 600 168 018) (Lotsearch) or who otherwise has access to the Report (Terms). The contract terms that apply between Lotsearch and the purchaser of the Report are specified in the order form pursuant to which the Report was ordered and the terms set out below are of no effect as between Lotsearch and the purchaser of the Report.

1. End User acknowledges and agrees that:
 - (a) the Report is compiled from or using content (**Third Party Content**) which is comprised of:
 - (i) content provided to Lotsearch by third party content suppliers with whom Lotsearch has contractual arrangements or content which is freely available or methodologies licensed to Lotsearch by third parties with whom Lotsearch has contractual arrangements (**Third Party Content Suppliers**); and
 - (ii) content which is derived from content described in paragraph (i);
 - (b) Neither Lotsearch nor Third Party Content Suppliers takes any responsibility for or give any warranty in relation to the accuracy or completeness of any Third Party Content included in the Report including any contaminated land assessment or other assessment included as part of a Report;
 - (c) the Third Party Content Suppliers do not constitute an exhaustive set of all repositories or sources of information available in relation to the property which is the subject of the Report (**Property**) and accordingly neither Lotsearch nor Third Party Content Suppliers gives any warranty in relation to the accuracy or completeness of the Third Party Content incorporated into the report including any contaminated land assessment or other assessment included as part of a Report;
 - (d) Reports are generated at a point in time (as specified by the date/time stamp appearing on the Report) and accordingly the Report is based on the information available at that point in time and Lotsearch is not obliged to undertake any additional reporting to take into consideration any information that may become available between the point in time specified by the date/time stamp and the date on which the Report was provided by Lotsearch to the purchaser of the Report;
 - (e) Reports must be used or reproduced in their entirety and End User must not reproduce or make available to other persons only parts of the Report;
 - (f) Lotsearch has not undertaken any physical inspection of the property;
 - (g) neither Lotsearch nor Third Party Content Suppliers warrants that all land uses or features whether past or current are identified in the Report;
 - (h) the Report does not include any information relating to the actual state or condition of the Property;
 - (i) the Report should not be used or taken to indicate or exclude actual fitness or unfitness of Land or Property for any particular purpose
 - (j) the Report should not be relied upon for determining saleability or value or making any other decisions in relation to the Property and in particular should not be taken to be a rating or assessment of the desirability or market value of the property or its features; and
 - (k) the End User should undertake its own inspections of the Land or Property to satisfy itself that there are no defects or failures
2. The End User may not make the Report or any copies or extracts of the report or any part of it available to any other person. If End User wishes to provide the Report to any other person or make extracts or copies of the Report, it must contact the purchaser of the Report before doing so to ensure the proposed use is consistent with the contract terms between Lotsearch and the purchaser.
3. Neither Lotsearch (nor any of its officers, employees or agents) nor any of its Third Party Content Suppliers will have any liability to End User or any person to whom End User provides the Report and End User must not represent that Lotsearch or any of its Third Party Content Suppliers accepts liability to any such person or make any other representation to any such person on behalf of Lotsearch or any Third Party Content Supplier.
4. The End User hereby to the maximum extent permitted by law:
 - (a) acknowledges that the Lotsearch (nor any of its officers, employees or agents), nor any of its Third Party Content Supplier have any liability to it under or in connection with the

- Report or these Terms;
- (b) waives any right it may have to claim against Third Party Content Supplier in connection with the Report, or the negotiation of, entry into, performance of, or termination of these Terms; and
 - (c) releases each Third Party Content Supplier from any claim it may have otherwise had in connection with the Report, or the negotiation of, entry into, performance of, or termination of these Terms.
5. The End User acknowledges that any Third Party Supplier shall be entitled to plead the benefits conferred on it under clause 4, despite not being a party to these terms.
 6. End User must not remove any copyright notices, trade marks, digital rights management information, other embedded information, disclaimers or limitations from the Report or authorise any person to do so.
 7. End User acknowledges and agrees that Lotsearch and Third Party Content Suppliers retain ownership of all copyright, patent, design right (registered or unregistered), trade marks (registered or unregistered), database right or other data right, moral right or know how or any other intellectual property right in any Report or any other item, information or data included in or provided as part of a Report.
 8. To the extent permitted by law and subject to paragraph 9, all implied terms, representations and warranties whether statutory or otherwise relating to the subject matter of these Terms other than as expressly set out in these Terms are excluded.
 9. Subject to paragraph 6, Lotsearch excludes liability to End User for loss or damage of any kind, however caused, due to Lotsearch's negligence, breach of contract, breach of any law, in equity, under indemnities or otherwise, arising out of all acts, omissions and events whenever occurring.
 10. Lotsearch acknowledges that if, under applicable State, Territory or Commonwealth law, End User is a consumer certain rights may be conferred on End User which cannot be excluded, restricted or modified. If so, and if that law applies to Lotsearch, then, Lotsearch's liability is limited to the greater of an amount equal to the cost of resupplying the Report and the maximum extent permitted under applicable laws.
 11. Subject to paragraph 9, neither Lotsearch nor the End User is liable to the other for:
 - (a) any indirect, incidental, consequential, special or exemplary damages arising out of or in relation to the Report or these Terms; or
 - (b) any loss of profit, loss of revenue, loss of interest, loss of data, loss of goodwill or loss of business opportunities, business interruption arising directly or indirectly out of or in relation to the Report or these Terms,irrespective of how that liability arises including in contract or tort, liability under indemnity or for any other common law, equitable or statutory cause of action or otherwise.
 12. These Terms are subject to New South Wales law.

USE OF REPORT - APPLICABLE TERMS

The following terms apply to any person (End User) who is given the Report by the person who purchased the Report from Lotsearch Pty Ltd (ABN: 89 600 168 018) (Lotsearch) or who otherwise has access to the Report (Terms). The contract terms that apply between Lotsearch and the purchaser of the Report are specified in the order form pursuant to which the Report was ordered and the terms set out below are of no effect as between Lotsearch and the purchaser of the Report.

1. End User acknowledges and agrees that:
 - (a) the Report is compiled from or using content (**Third Party Content**) which is comprised of:
 - (i) content provided to Lotsearch by third party content suppliers with whom Lotsearch has contractual arrangements or content which is freely available or methodologies licensed to Lotsearch by third parties with whom Lotsearch has contractual arrangements (**Third Party Content Suppliers**); and
 - (ii) content which is derived from content described in paragraph (i);
 - (b) Neither Lotsearch nor Third Party Content Suppliers takes any responsibility for or give any warranty in relation to the accuracy or completeness of any Third Party Content included in the Report including any contaminated land assessment or other assessment included as part of a Report;
 - (c) the Third Party Content Suppliers do not constitute an exhaustive set of all repositories or sources of information available in relation to the property which is the subject of the Report (**Property**) and accordingly neither Lotsearch nor Third Party Content Suppliers gives any warranty in relation to the accuracy or completeness of the Third Party Content incorporated into the report including any contaminated land assessment or other assessment included as part of a Report;
 - (d) Reports are generated at a point in time (as specified by the date/time stamp appearing on the Report) and accordingly the Report is based on the information available at that point in time and Lotsearch is not obliged to undertake any additional reporting to take into consideration any information that may become available between the point in time specified by the date/time stamp and the date on which the Report was provided by Lotsearch to the purchaser of the Report;
 - (e) Reports must be used or reproduced in their entirety and End User must not reproduce or make available to other persons only parts of the Report;
 - (f) Lotsearch has not undertaken any physical inspection of the property;
 - (g) neither Lotsearch nor Third Party Content Suppliers warrants that all land uses or features whether past or current are identified in the Report;
 - (h) the Report does not include any information relating to the actual state or condition of the Property;
 - (i) the Report should not be used or taken to indicate or exclude actual fitness or unfitness of Land or Property for any particular purpose
 - (j) the Report should not be relied upon for determining saleability or value or making any other decisions in relation to the Property and in particular should not be taken to be a rating or assessment of the desirability or market value of the property or its features; and
 - (k) the End User should undertake its own inspections of the Land or Property to satisfy itself that there are no defects or failures
2. The End User may not make the Report or any copies or extracts of the report or any part of it available to any other person. If End User wishes to provide the Report to any other person or make extracts or copies of the Report, it must contact the purchaser of the Report before doing so to ensure the proposed use is consistent with the contract terms between Lotsearch and the purchaser.
3. Neither Lotsearch (nor any of its officers, employees or agents) nor any of its Third Party Content Suppliers will have any liability to End User or any person to whom End User provides the Report and End User must not represent that Lotsearch or any of its Third Party Content Suppliers accepts liability to any such person or make any other representation to any such person on behalf of Lotsearch or any Third Party Content Supplier.
4. The End User hereby to the maximum extent permitted by law:
 - (a) acknowledges that the Lotsearch (nor any of its officers, employees or agents), nor any of its Third Party Content Supplier have any liability to it under or in connection with the

- Report or these Terms;
- (b) waives any right it may have to claim against Third Party Content Supplier in connection with the Report, or the negotiation of, entry into, performance of, or termination of these Terms; and
 - (c) releases each Third Party Content Supplier from any claim it may have otherwise had in connection with the Report, or the negotiation of, entry into, performance of, or termination of these Terms.
5. The End User acknowledges that any Third Party Supplier shall be entitled to plead the benefits conferred on it under clause 4, despite not being a party to these terms.
 6. End User must not remove any copyright notices, trade marks, digital rights management information, other embedded information, disclaimers or limitations from the Report or authorise any person to do so.
 7. End User acknowledges and agrees that Lotsearch and Third Party Content Suppliers retain ownership of all copyright, patent, design right (registered or unregistered), trade marks (registered or unregistered), database right or other data right, moral right or know how or any other intellectual property right in any Report or any other item, information or data included in or provided as part of a Report.
 8. To the extent permitted by law and subject to paragraph 9, all implied terms, representations and warranties whether statutory or otherwise relating to the subject matter of these Terms other than as expressly set out in these Terms are excluded.
 9. Subject to paragraph 6, Lotsearch excludes liability to End User for loss or damage of any kind, however caused, due to Lotsearch's negligence, breach of contract, breach of any law, in equity, under indemnities or otherwise, arising out of all acts, omissions and events whenever occurring.
 10. Lotsearch acknowledges that if, under applicable State, Territory or Commonwealth law, End User is a consumer certain rights may be conferred on End User which cannot be excluded, restricted or modified. If so, and if that law applies to Lotsearch, then, Lotsearch's liability is limited to the greater of an amount equal to the cost of resupplying the Report and the maximum extent permitted under applicable laws.
 11. Subject to paragraph 9, neither Lotsearch nor the End User is liable to the other for:
 - (a) any indirect, incidental, consequential, special or exemplary damages arising out of or in relation to the Report or these Terms; or
 - (b) any loss of profit, loss of revenue, loss of interest, loss of data, loss of goodwill or loss of business opportunities, business interruption arising directly or indirectly out of or in relation to the Report or these Terms,irrespective of how that liability arises including in contract or tort, liability under indemnity or for any other common law, equitable or statutory cause of action or otherwise.
 12. These Terms are subject to New South Wales law.

USE OF REPORT - APPLICABLE TERMS

The following terms apply to any person (End User) who is given the Report by the person who purchased the Report from Lotsearch Pty Ltd (ABN: 89 600 168 018) (Lotsearch) or who otherwise has access to the Report (Terms). The contract terms that apply between Lotsearch and the purchaser of the Report are specified in the order form pursuant to which the Report was ordered and the terms set out below are of no effect as between Lotsearch and the purchaser of the Report.

1. End User acknowledges and agrees that:
 - (a) the Report is compiled from or using content (**Third Party Content**) which is comprised of:
 - (i) content provided to Lotsearch by third party content suppliers with whom Lotsearch has contractual arrangements or content which is freely available or methodologies licensed to Lotsearch by third parties with whom Lotsearch has contractual arrangements (**Third Party Content Suppliers**); and
 - (ii) content which is derived from content described in paragraph (i);
 - (b) Neither Lotsearch nor Third Party Content Suppliers takes any responsibility for or give any warranty in relation to the accuracy or completeness of any Third Party Content included in the Report including any contaminated land assessment or other assessment included as part of a Report;
 - (c) the Third Party Content Suppliers do not constitute an exhaustive set of all repositories or sources of information available in relation to the property which is the subject of the Report (**Property**) and accordingly neither Lotsearch nor Third Party Content Suppliers gives any warranty in relation to the accuracy or completeness of the Third Party Content incorporated into the report including any contaminated land assessment or other assessment included as part of a Report;
 - (d) Reports are generated at a point in time (as specified by the date/time stamp appearing on the Report) and accordingly the Report is based on the information available at that point in time and Lotsearch is not obliged to undertake any additional reporting to take into consideration any information that may become available between the point in time specified by the date/time stamp and the date on which the Report was provided by Lotsearch to the purchaser of the Report;
 - (e) Reports must be used or reproduced in their entirety and End User must not reproduce or make available to other persons only parts of the Report;
 - (f) Lotsearch has not undertaken any physical inspection of the property;
 - (g) neither Lotsearch nor Third Party Content Suppliers warrants that all land uses or features whether past or current are identified in the Report;
 - (h) the Report does not include any information relating to the actual state or condition of the Property;
 - (i) the Report should not be used or taken to indicate or exclude actual fitness or unfitness of Land or Property for any particular purpose
 - (j) the Report should not be relied upon for determining saleability or value or making any other decisions in relation to the Property and in particular should not be taken to be a rating or assessment of the desirability or market value of the property or its features; and
 - (k) the End User should undertake its own inspections of the Land or Property to satisfy itself that there are no defects or failures
2. The End User may not make the Report or any copies or extracts of the report or any part of it available to any other person. If End User wishes to provide the Report to any other person or make extracts or copies of the Report, it must contact the purchaser of the Report before doing so to ensure the proposed use is consistent with the contract terms between Lotsearch and the purchaser.
3. Neither Lotsearch (nor any of its officers, employees or agents) nor any of its Third Party Content Suppliers will have any liability to End User or any person to whom End User provides the Report and End User must not represent that Lotsearch or any of its Third Party Content Suppliers accepts liability to any such person or make any other representation to any such person on behalf of Lotsearch or any Third Party Content Supplier.
4. The End User hereby to the maximum extent permitted by law:
 - (a) acknowledges that the Lotsearch (nor any of its officers, employees or agents), nor any of its Third Party Content Supplier have any liability to it under or in connection with the

- Report or these Terms;
- (b) waives any right it may have to claim against Third Party Content Supplier in connection with the Report, or the negotiation of, entry into, performance of, or termination of these Terms; and
 - (c) releases each Third Party Content Supplier from any claim it may have otherwise had in connection with the Report, or the negotiation of, entry into, performance of, or termination of these Terms.
5. The End User acknowledges that any Third Party Supplier shall be entitled to plead the benefits conferred on it under clause 4, despite not being a party to these terms.
 6. End User must not remove any copyright notices, trade marks, digital rights management information, other embedded information, disclaimers or limitations from the Report or authorise any person to do so.
 7. End User acknowledges and agrees that Lotsearch and Third Party Content Suppliers retain ownership of all copyright, patent, design right (registered or unregistered), trade marks (registered or unregistered), database right or other data right, moral right or know how or any other intellectual property right in any Report or any other item, information or data included in or provided as part of a Report.
 8. To the extent permitted by law and subject to paragraph 9, all implied terms, representations and warranties whether statutory or otherwise relating to the subject matter of these Terms other than as expressly set out in these Terms are excluded.
 9. Subject to paragraph 6, Lotsearch excludes liability to End User for loss or damage of any kind, however caused, due to Lotsearch's negligence, breach of contract, breach of any law, in equity, under indemnities or otherwise, arising out of all acts, omissions and events whenever occurring.
 10. Lotsearch acknowledges that if, under applicable State, Territory or Commonwealth law, End User is a consumer certain rights may be conferred on End User which cannot be excluded, restricted or modified. If so, and if that law applies to Lotsearch, then, Lotsearch's liability is limited to the greater of an amount equal to the cost of resupplying the Report and the maximum extent permitted under applicable laws.
 11. Subject to paragraph 9, neither Lotsearch nor the End User is liable to the other for:
 - (a) any indirect, incidental, consequential, special or exemplary damages arising out of or in relation to the Report or these Terms; or
 - (b) any loss of profit, loss of revenue, loss of interest, loss of data, loss of goodwill or loss of business opportunities, business interruption arising directly or indirectly out of or in relation to the Report or these Terms,irrespective of how that liability arises including in contract or tort, liability under indemnity or for any other common law, equitable or statutory cause of action or otherwise.
 12. These Terms are subject to New South Wales law.
