

Appendix 1- Capital Program 2025-2029 Delivery Plan

Capital Program

The Delivery Plan 2025-2029 includes a capital program with over \$331 million of expenditure.

It is a significant program with several large projects commencing or being completed. We will fund this program through reserves (funds we put aside for a particular purpose), general rates and charges revenue, developer contributions and grants. Several of the projects outlined will only proceed if we secure competitive grant funding, with close to \$28 million needed to get these projects underway. If grant funding is secured, the funding will be captured in the Quarterly Budget Review Statement process once a funding deed has been executed.

The below program is a combination of key major projects and consolidated programs, particularly in our roads area, that consist of smaller individual projects. The capital works program is updated annually to reflect feedback we have received from the community, grant funding received or a change in project scope and timing.

Council maintains a 10-year capital works program, supported by our asset management plans, to prioritise the allocation of limited funds to capital projects. This document outlines the first four years from 2025-2029 of that 10-year program.

Our Long Term Financial Plan outlines three options based on projected revenue and expenditure and this capital program is based on Model C.

Capital Program- Spend split by fund.....	3
Capital Program- detailed list- General Fund	3
Capital Program- detailed list- Water.....	10
Capital Program- detailed list- sewer.....	12
Capital Program- funding source- General Fund only.....	14
Capital Program- Projects with projected grant funding	15
Capital Program- Split of renewal, upgrades and new- all funds.....	17
Capital Program- Locality split	18
Capital Program- Spend split by cost centre.....	19

Version 2- Adopted- 23 June 2025

Capital Program- Spend split by fund

This table highlights the value of capital works proposed across our three funds- General fund, Water Fund and Sewer Fund.

Fund	2025-26	2026-27	2027-28	2028-29	Total 4 Years
General Fund	76,079,272	40,776,746	39,981,609	15,760,548	172,598,174
Water Fund	11,097,962	7,258,887	21,619,623	20,650,691	60,627,163
Sewer Fund	16,426,449	17,197,833	28,668,491	36,094,186	98,386,960
TOTAL	103,603,683	65,233,723	90,269,723	72,505,425	331,612,297

2028-29	15,760,548	3,939,619	409,709	-	5,653,204	5,758,015
TOTAL	172,598,174	58,539,172	27,938,092	10,816,689	41,853,225	33,450,996

Capital Program- Projects with projected grant funding

This table outlines all projects in the Delivery Plan 2025-29 that are reliant on grant funding. Confirmed grants is funding that Council has secured or knows it will receive as part of a multi-year funding program e.g the Roads to Recovery program. Projected grant funding if funding that Council has not secured. Council needs to find a suitable grant program, apply for the grant and then hopefully be successful.

Project	Year	Total Project Value	Projected Grant Amount	Other Revenue Source (Reserves)
Pambula School of Arts public toilets	2028/29	237,504	118,752	118,752
