I,.....
hereby agree to the following conditions when entering the Central Waste Facility (CWF):

Background

~~Conditions of Entry to Central Waste Facility~~
Central Waste Facility requires a transport code of conduct to be in place which addresses safety concerns held by the community regarding the use of Wanatta Lane by waste delivery vehicles.

The purpose of the Code of Conduct is to obtain a commitment from Central Waste Facility users to ensuring the safety of themselves and others whilst using the local road network.

- All access to the Central Waste Facility must be from the Princes Highway end of Wanatta Lane via the 1.6km section of sealed road constructed for this purpose. This section of road is also used by the general public and school buses.
- The sites operational hours are 8.00am till 4.00pm Monday to Saturday. No vehicles are to arrive at CWF prior to 8.00am.
- Waste delivery truck drivers shall observe all road rules, advisory and regulatory signage at all times whilst using Wanatta Lane to access the Central Waste Facility and implement safe driving practices. Drivers must follow staff instruction at all times.
- Due to school bus usage, waste delivery trucks shall not use Wanatta Lane between 8.40am to 9.00am and 3.35pm to 3.50pm school days.
- In the event that a waste delivery truck is on Wanatta Lane at the same time as the school bus, the waste delivery truck shall slow to a speed of maximum 40km/hour irrespective of whether the school bus is stopping to collect or drop off children.
- Under no circumstances shall a waste delivery truck overtake a school bus on Wanatta Lane.
- Waste delivery truck drivers shall be aware that Wanatta Lane is a public road and is used by members of the general public including motorists, cyclists and pedestrians. Drivers shall remain patient and courteous at all times whilst sharing the road with members of the general public.
- Where possible, drivers should consider limiting the use of engine/compression breaking on Wanatta Lane and within the Central Waste Facility, to minimise impact on local amenity.
- All persons entering the CWF do so at their own risk and Council takes no responsibility for any loss or damage to property and injury or death to persons arising from use of the site.
- All loads containing asbestos or hazardous materials must be reported to CWF staff.
- All loads must be secured to prevent accidental discharge of material from the vehicle.
- Vehicles must keep to formed roads, give way to heavy machinery at all times, and must comply with all signage at the site.

Declaration

- I agree to abide by this Transport Code of Conduct as a condition of using the Central Waste Facility.
- I agree that the details provided on this form may be used in accordance with our debt recovery policy - 6.06 Financial Management Policy 6.06 - 6.06.03 Debt recovery
